

# Hashim AbdulBasit Yousuf

## Computer Science – Specialized in Cybersecurity & Networking

---

Muscat, Oman – hashimyousuf2002@gmail.com – +968 91239693 – [github.com/LuckyLuckiest](https://github.com/LuckyLuckiest)

---

I am a motivated and detail-oriented Computer Science student specializing in Cybersecurity and Networking. Experience in software development, data analysis, system security, and team leadership. Passionate about solving real-world problems using technology and modern science.

### Technical Skills

---

**Languages:** Java, Python, C/C++, C#

**Tools & Frameworks:** .NET Framework (MVC), Git, Scikit-learn

**Cybersecurity Tools:** Metasploit, OWASP ZAP, Wireshark, Autopsy, FTK Imager, Kali Linux

**Concepts:** Data Structures, Cryptography, Penetration Testing, AI Integration, Network Protocols (AAA, RADIUS, TACACS+)

### Final Year Project

---

#### Classifying Dark Patterns in Privacy Policies

Sultan Qaboos University

2025

- Fine-tuned AI model that would help in classifying a privacy policy.
- Manually constructed a dataset that would be used to train the model on.

### Work Experience

---

#### Independent Developer

Self-directed Project

2022 – Present

- Designed and developed simple 2D game engines.
- Developed a supermarket program using various knowledge using Java.
- Taught school kids how to program in Python and create their first game.
- Applied advanced topics to help develop enriched video games (sound, system handling, character movement).

#### Teaching Assistant – Computer Science Department

Sultan Qaboos University

2022 – 2025

- I taught courses in programming and system architecture.
- Taught students in various courses the subject and marked their assignments.
- Held meetings with doctors regarding student academic work.
- Coordinated with a team of other teaching assistants.

#### Workshop – Linux

Sultan Qaboos University

Oct 2024

- I attended a 3-day Linux workshop on campus and learned various commands.
- Visited Viridian's datacenter to understand server communication and infrastructure.

## Internship – IT Helpdesk & Network and Security Team

Bank Suhar

Jun – Aug 2024

- Collaborated with IT teams including help desk, networking and security.
- Gained hands-on experience with Cisco ISE, PACOM, Vanguard, and endpoint protection tools.
- Learned about AAA protocols, RADIUS, TACACS+, and multi-layered security design.

## Minecraft Plugin Developer

Freelance / Personal Project

2017 – 2024

- Developed Spigot plugins in Java to extend Minecraft functionality.
- Collaborated with a community of 100+ players to gather feedback and release regular updates.
- Implemented configuration files, version compatibility, and performance optimizations.

## Workshop – Oman Competition of AI-Enhanced Drones

Sultan Qaboos University

Feb – Apr 2024

- Gained practical knowledge in drone assembly, mission creation, and algorithm-based navigation using computer vision.

## Internship – IT Helpdesk & Development Team

Oman Medical Specialty Board (OMSB)

Jul – Aug 2023

- Led a team of 4 interns to develop a web-based appointment reservation system using .NET MVC and C#.
- Helped the team to diagnose and fix issues related to their devices or accounts.

## Developer – Hawal Application

Be'ah Hackathon

Aug 2022

- Developed a speech-to-text app using Google API to aid waste management logistics.

## Internship – Tarussed+ Program

Oman International Hospital

Jul – Aug 2021

- Assisted in patient data management and communication workflows.

## Competitions

---

### Competitive Programming – OCPC and GPC

Sultan Qaboos University

2022 – 2025

- Led teams in multiple regional programming competitions, consistently ranking in the top 10.
- Learned various computer algorithms and system mechanics in competition.

### Hackathon – Aerohack

Oman Exhibition and Innovation Center

Jul 2023

- Led a team of 4 to innovate an idea about enhancing the aero field in Muscat Airport.
- Qualified to be among the competitive teams in innovation.

## Education

---

Bachelor of Science in Computer Science

Sultan Qaboos University

2025

High School Diploma

Al-Ibdaa International School

2020
